

I support the petition filed by the National Association of State Utility Consumer Advocates and endorsed by other consumer advocacy organizations, including CU. This petition, CG Docket No. 04-208, Petition for Declaratory Ruling Regarding Truth-In-Billing and Billing Format, is long overdue. This bill supports many state and federal laws that are already in place but are not being adhered to by both wireline and wireless phone services across the country! Phone bills should be truthful, easy to read and easy to understand. Instead, the long distance and wireless bills are filled with surcharges with misleading names that imply the line items are mandated by law, when they are not. Because this practice is tolerated by the FCC, long distance and wireless phone companies are able to hide the true cost of service. These add-ons make the advertised price of service significantly less than the amount of the check I have to write each month to pay the bill. The right to Competition for businesses in America, as guaranteed by the Constitution of the United States, will not work if consumers cannot accurately compare prices. The FCC should immediately grant the NASUCA petition to investigate carrier practices related to line item charges on bills for wireline and wireless phone service; to declare certain practices in violation of the Commission's "Truth in Billing" Order and to prohibit carriers from imposing separate monthly fees, line items or surcharges unless expressly mandated by law or the charge is expressly authorized by a governmental authority. Please stop supporting the perpetuation of fraudulent business practices upon the citizens for whom you were organized to protect! Sincerely, Teresa Elaine, LMSW #36 Mohawk Drive Lisle, New York 13797
